VISION

The AAPG Foundation was established in 1967 to assist the Association and other qualified organizations by providing a source of funding to support educational, charitable and scientific objectives which directly and indirectly benefit the geologic profession and the general public.

Previously, costs of AAPG services and publications were entirely defrayed by Association membership dues and from sales of publications. However, as costs continued to increase, it became apparent additional funding would be essential to the continued success of the Association.

The leaders of the Association and the Foundation are committed to the belief that a strong Association is mandatory to ensure the future of petroleum geology in providing energy for the benefit of mankind.

Uniting their strengths, the Association and the Foundation become an instrument for providing informational, networking, and financial benefits, and strive together to ensure the quality and quantity of AAPG products and services to its membership, the greater geoscience community and our global society.

MESSAGE FROM THE CHAIRMAN

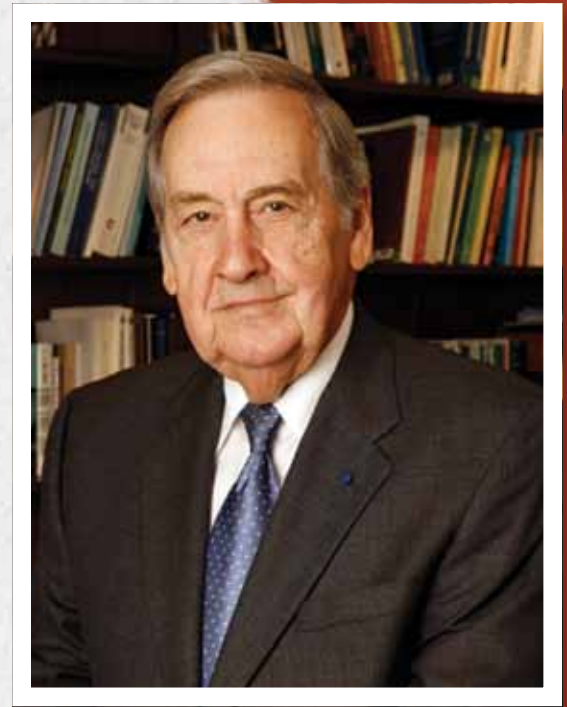

It is with sincere appreciation that I, along with all of the AAPG Foundation Trustees, express gratitude to all of the individuals who have dedicated time, talent and financial support to the AAPG Foundation. Our mission to bring relevant programs and services to the geologic community is advancing because of your faithfulness and dedication.

The Foundation's Financial Campaign – "Meeting Challenges...Assuring Success" has proven to be a true representation of our commitment, as we have exceeded \$32.2 million in contributions and pledges and are headed straight toward the campaign goal of \$35 million.

The impact of earth sciences on mankind is being recognized now more than ever before. It has become imperative to develop new methods of energy resources and AAPG Foundation programs are at the core of this new research. Foundation programs such as Distinguished Lecturers, K-12 Education, the Energy Resources Library and Grants-in-Aid positively affect geoscientists as well as the global community.

This annual report provides a comprehensive review of the organizational chart, financial status, programs, funds, and donors of the AAPG Foundation for this past fiscal year. As you read the material provided, please know that the part you play is important and valued.

MESSAGE FROM THE EXECUTIVE DIRECTOR

**“IT IS EASY TO DODGE OUR RESPONSIBILITIES,
BUT WE CANNOT DODGE THE CONSEQUENCES
OF DODGING OUR RESPONSIBILITIES.”**

Richard D. Fritz, AAPG Executive Director

Josiah Charles Stamp, English Economist and President of the Bank of England in the 1920's and the second richest man in Great Britain wrote the words above, but it could have been written by any number of people associated with the AAPG Foundation.

Participating in and witnessing the effects of the Foundation's efforts put forth in its 30-plus programs has been extremely fulfilling and fruitful.

The Board of Trustees met four times this fiscal year, evaluated 31 proposals and approved funding for 16. Financial support went to various special publications, teacher's workshops and field courses, maps, AGI's Earth Science Week, various courses for professors, an Antarctica expedition, the Boy Scouts Merit Badge program, an interactive geology project at the University of Colorado and more. Services were provided to countless numbers of geologists and students of all ages. From the Distinguished Lecture series to Grants-in-Aid, the programs managed and/or supported by the AAPG Foundation continue to strengthen our industry.

Our accomplishments would not have been possible without the loyalty and support of our donors. As we continue to cultivate new partnerships and explore more ways to meet the mission of supporting educational, charitable and scientific objectives that benefit the geologic profession and the general public, we'd like to recognize important individuals who have enabled the AAPG Foundation to come as far as it has. Approximately 3,000 people contributed financially to the AAPG Foundation this past year. Our gratitude is immense.

Let me close by expressing my pride in the dedication of our Board of Trustees, Financial Campaign Committee, Members of the Corporation, Trustee Associate Officers and members and the Corporate Advisory Board. Your assistance has been invaluable.

I hope you are pleased with how the AAPG Foundation utilizes the funds entrusted to carry out the mission of the organization. We are performing and evolving. And I trust that you share our excitement about the role we can play in what promises to be a new epoch for our industry and for our planet.

As I prepare to turn over the reins of Executive Director, I brace myself for the wonderful world of volunteerism! And I can say with confidence that by channeling our knowledge, creativity and determination, we will continue our tradition of growth and influence.

FOUNDATION ORGANIZATION

American Association of Petroleum Geologists Foundation

An Oklahoma 501(c)(3) nonprofit corporation

Members of Corporation

(Members from the following three categories – Regular Members, Trustee Members, and Trustee Emeritus Members. All must be AAPG members; vacancies filled by vote of remaining Members.)

20 Regular Members

Serve staggered 5-year terms.

3-6 Trustee Members: Serve concurrently with their 3-year terms as Trustee.

Trustee Emeritus Members:

All former Trustees automatically serve in this category with unlimited terms.

Primary Function

To govern terms, election and number of Foundation Trustees.

Foundation Trustees

(3-6 people elected from among Members of the Corporation by vote of Members.)

Primary Function:

To manage business and property of the Foundation.

Term: 3 years (staggered)

Officers

(Elected by Trustees from among the Trustees.)
Chairman, Vice Chairman, Secretary, Treasurer

Term: 1 year

Foundation Trustee Associates

(Informal donor recognition group only, with no corporate governance role and no corporate responsibility or authority.)

Membership Requirements:

AAPG membership, invitation from 3 Trustee Associates and a \$12,500 contribution payable over 5 years.

Primary Function:

To support major projects of the Foundation and to solicit other contributions for the Foundation

Term: No limit

Trustee Associate Officers

(3 people elected by majority of Trustee Associates attending Trustee Associates Annual Meeting.)

Primary Function:

To manage Trustee Associates business such as meetings, membership, etc.

Chairman (1-year term)

Vice Chairman (1-year term)

Secretary-Treasurer (2-year term)

STATUS OF THE FOUNDATION

Fiscal year ending June 30, 2010

As a part of its vital mission, this 501(c)(3) organization encourages a better understanding and advancement of the geosciences by supporting education, training and career enhancement for earth scientists.

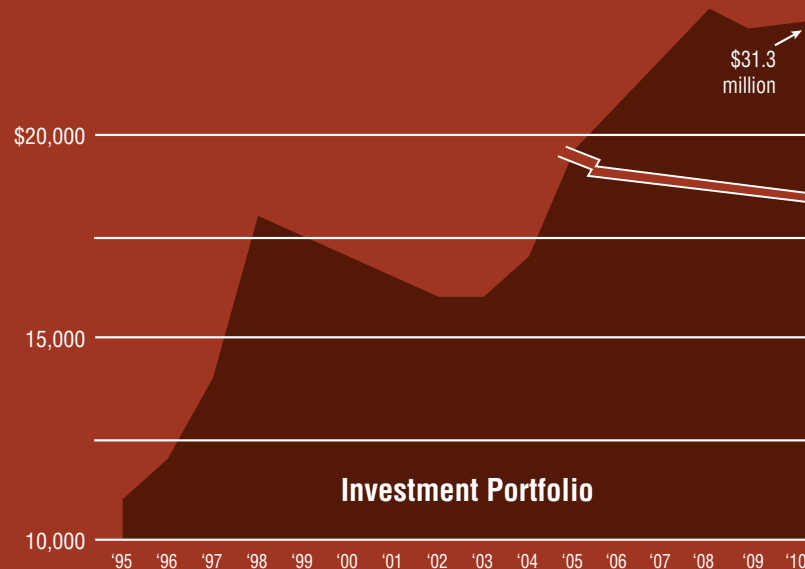

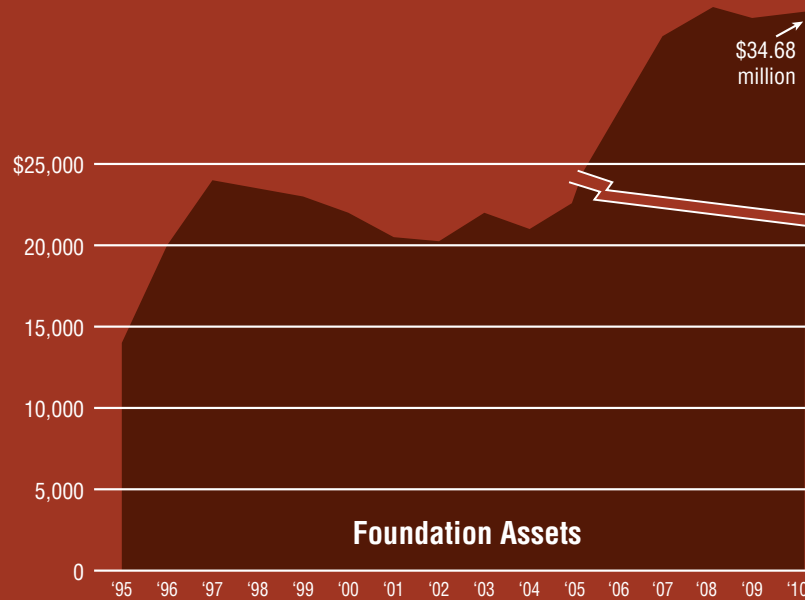

FINANCIAL OVERVIEW

As everyone knows, the economy has been challenging the past several years. However, the economy improved modestly last year, which assisted in the Foundation's investment portfolio growth. The Foundation portfolio grew by 7.2% which is the first gain in the past three years.

The investment portfolio is conservatively invested and well diversified and includes public and private equity mutual funds, fixed income mutual funds, international investments and real estate. The investment portfolio of the Foundation amounted to \$31.3 million on June 30, 2010 compared to \$29.2 million on June 30, 2009.

The total assets of the Foundation were \$34.68 million, which includes the Foundation headquarters buildings and the investment portfolio.

For fiscal year 2010, the Foundation operating revenue amounted to \$1.053 million compared to last year for the same period of \$936.5K. Revenues came primarily from rental income, interest, dividends and capital gains, and oil and gas royalties. Operating expenses totaled \$1.395 million compared to the previous year of \$1.424 million.

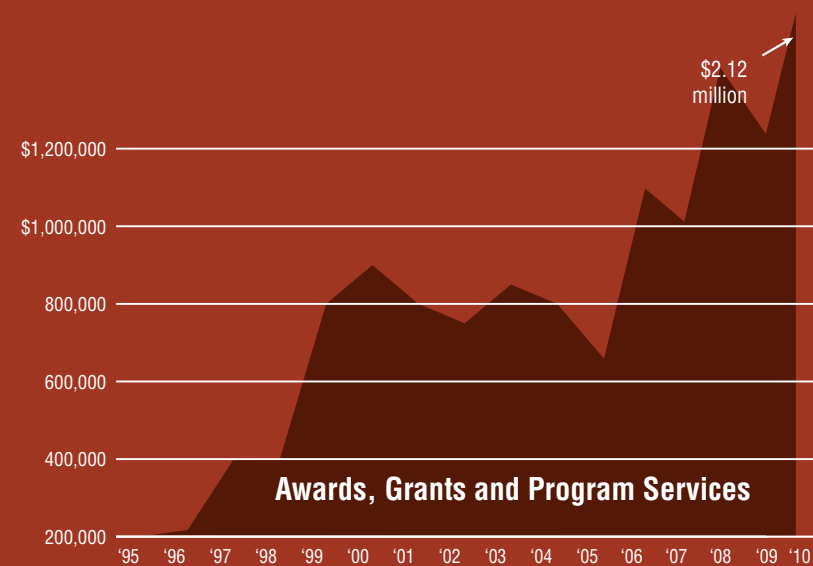

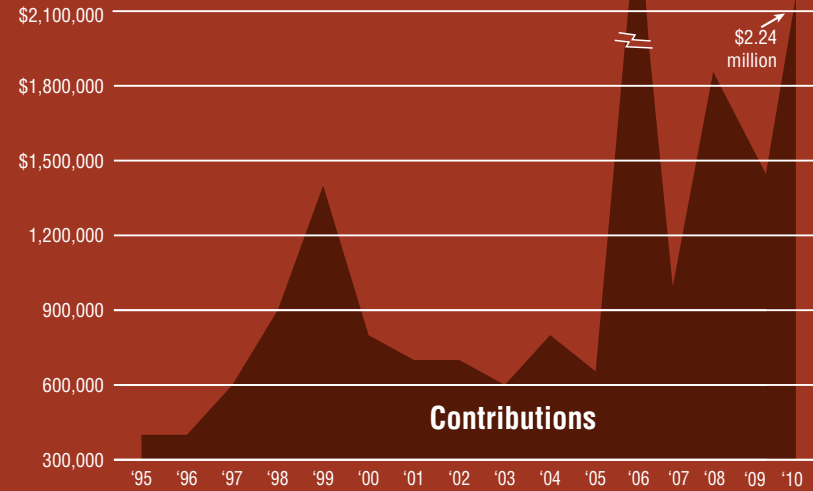

Including contributions to the Foundation of \$2.244 million and awards and grants of \$2.125 million, the Foundation had a surplus for the year of \$2.2 million. For comparison, in fiscal year 2009, the Foundation had a loss of (\$6.8 million) due primarily to losses in the investment portfolio.

The contributions to the Foundation for FY 2010 of \$2.24 million are above FY 2009 of \$1.43 million. Approximately 15% of AAPG members contributed to the Foundation through their AAPG dues statements. For FY 2009, 10 percent of AAPG members contributed to the Foundation in this manner, and in FY 2007, contributions were \$1 million with 15% of the AAPG members contributing voluntarily through their AAPG dues statements.

PROGRAM SUPPORT

The Foundation continues to support many of the core programs supported the past several years as well as some new programs. Awards and grants amounted to \$2.125 million. This number includes \$567,000 for the Bridge Fund and compares to \$1.286 million in FY 2009; \$1.24 in FY 2008, and \$816,054 in FY 2007.

HONORS AND AWARDS

The Honors and Awards program provides a means for recognizing outstanding achievements and contributions by professional geologists, especially in the area of exploration for petroleum and energy mineral resources, and by other professionals who further the goals and objectives of our science, our profession, and our Association. The motivation toward scientific and professional achievement which such recognition stimulates is much to be desired. Congratulations to the 2010 Awardees.

Bill Fisher presents the 2010 Foundation Chairman's Award to Larry Funkhouser

FOUNDATION L. AUSTIN WEEKS MEMORIAL MEDAL

The L. Austin Weeks Memorial Medal is given in recognition for extraordinary philanthropy and service directed to advance the mission of the AAPG Foundation. The Foundation award honors the late L. Austin Weeks, whose philanthropic legacy set an exemplary standard.

The award was established in 2008; it is the Foundation's highest award.

Larry Funkhouser was the third recipient of the Week's Medal, which was presented at the All-Convention Luncheon at the AAPG Annual meeting in New Orleans. Funkhouser has been a loyal and involved supporter of the Foundation since 1986.

Chairman's Award presented to Scotty Holland

FOUNDATION CHAIRMAN'S AWARD

The Chairman's Award was the first award established by the Foundation. It is given to recognize persons who have made extraordinary contributions (monetary or service) to the AAPG Foundation, and also to call attention to the role and value of the Foundation.

David Scott "Scotty" Holland was the 12th recipient of the Chairman's Award for his generous support and desire to reward professors for their dedication to the students of tomorrow. Holland contributed more than \$225,000 to establish the AAPG Foundation/David Scotty Holland Endowed Professorship at Hardin Simmons University-Holland School of Sciences and Mathematics for the Geological and Environmental Sciences Department. Holland accepted his award at the 33rd Annual Trustee Associates meeting in Georgia.

MEETING CHALLENGES...ASSURING SUCCESS AN AAPG FOUNDATION CAMPAIGN

The Foundation established a campaign goal of \$35 million to ensure that AAPG retains and expands its leadership role as one of the world's leading geosciences organizations. The goal is to double the support of existing programs and support of new initiatives, increase resources to launch exciting and vital new projects and programs to fulfill our mission. The campaign committee has provided the crucial leadership to meet the challenges and assure success required of this campaign that will significantly impact the geosciences and our future for the betterment of mankind.

L. AUSTIN WEEKS MEMORIAL ENDOWMENT FUND

L. Austin Weeks (1925 - 2005)

The **L. Austin Weeks Memorial Endowment Fund** was established in 2005 by a bequest from L. Austin Weeks to provide funding which furthers the AAPG Foundation mission to promote scientific activities related to the geosciences. The Trustees were delighted to provide grants to the following recipients during Fiscal year 2010:

•**AAPG Astrogeology Committee**

\$10,000 for “Energy Resources for Human settlement in the Solar System and Earth’s Future in Space” special publication

•**AAPG Bulletin**

\$80,000 for publishing expenses

•**AAPG Datapages**

\$34,000 to convert data record structures on Search & Discovery.

•**AAPG Education Department**

\$5,600 for the Professorial Grant Fund

•**AAPG Education Department**

\$30,000 to design, implement and offer three OpenCourseware online courses

•**AAPG Special Publications**

\$120,000 to hire contract editors due to a large number of books in publication.

•**AAPG Student Focus Committee**

\$25,000 for a booth at the 2009 Geological Society of America meeting in Portland, Ore.

•**AAPG Youth Education Activities Committee**

\$20,000 to place 180 framed, laminated USGS Tapestry of Time and Terrain maps in 180 schools and 540 rolled maps to be placed in classrooms over nine venues in 2010.

•**American Geological Institute**

\$30,000 for the Earth Science Week Program themed “Exploring Energy.”

•**BSA National Jamboree in Caroline County, VA**

\$9,977 in support of the Geology Merit Badge Program.

•**Ellison Miles Geotechnology Institute**

\$50,000 in support of teacher workshops as part of the Bookout Initiative

•**Northern California Geologic Society**

\$3,000 to supply geologic maps of California to 150 teachers in the San Francisco Bay area.

•**Sr. Echo Consulting**

\$12,000 for the Elysium Epic Expedition to Antarctica

•**University of Colorado**

\$25,000 for an interactive geology project

•**University of Nebraska**

\$15,500 to support the Science Educator Field Course GEOL 160 - Geoscience Fundamentals in the Field.

•**University of Texas at Austin**

\$10,000 continued funding for the GeoForce program

L. AUSTIN WEEKS MEMORIAL UNDERGRADUATE GRANT FUND

The L. Austin Weeks Memorial Undergraduate Grant Fund was established in 1997 by the late L. Austin Weeks to assist undergraduate students and their geosciences departments with a \$1,000 grant to each qualified AAPG Student Chapter that meets the requirements found in the AAPG Student Chapter Bylaws and Operations Manual. One-half of each grant is provided to an undergraduate student chosen by a local committee, and one-half to the Geoscience Department to be used to support the educational activities of the Student Chapter. The following universities and selected undergraduate students qualified for grants in the FY 2010 program:

DISTINGUISHED LECTURE FUND

The Distinguished Lecture Fund was established to fund the Distinguished Lecture Program which is the Association's oldest and most popular program reaching into affiliated societies and universities around the world. In addition to the distinguished lecturers' supported by the general earnings of the fund, substantial contributions from companies and individuals support five distinguished lecturers each year whose tours are individually identified with the names of distinguished members being honored or memorialized – Roy Huffington, Dean A. McGee, J. Ben Carsey, Merrill Haas-Wallace Pratt, and Allan P. Bennison. The general topic and/or geographic area to be addressed by a Named Distinguished Lecturer may be determined by the donor. The Foundation commends the following 2009-10 Distinguished Lecturers:

K-12 EDUCATION FUND

2010 Teacher of the Year award winner, L. Stef Paramoure

The **K-12 EDUCATION FUND** provides the Foundation's ongoing support dedicated to emphasizing earth science education at the elementary and secondary grade levels.

• **Ellison Miles Geotechnology Institute** – \$50,000 in support of teacher workshops as part of the Bookout Initiative. This includes:

- Eleven More! Rocks in Your Head workshops for a total of 550 teachers
- Classroom programs for 1,400 students
- Two summer institutes (five full days) in Austin and Victoria, Texas for a total of 60 teachers
- Bookout Geology on the Bus: 8 full days and 250 teachers

2010 total numbers of teachers reached: 860

- **The American Geological Institute** – \$35,000 to support the 2008 Earth Science Week program was themed “No Child Left Inside” to encourage everyone, and especially young people, to venture outdoors where they could experience Earth science firsthand.

• **Teacher of the Year** – Given by the AAPG Foundation, the Teacher of the Year is awarded \$5,000 for Excellence in the Teaching of Natural Resources in the Earth Sciences and is presented at the AAPG Annual Convention and Exhibition.

Each of the six sections submits their candidates, and a panel of judges selects the National award winner. The National award includes \$2,500 to the teacher's school for the winning teacher's use and \$2,500 for the teacher's personal use. In addition, the winner will receive an expense-paid trip to the annual meeting.

The winner of the 2010 contest is L. Stef Paramoure of New Braunfels, Texas.

The number of excellent candidates nominated is increasing every year. Supporting teachers in their efforts to educate K-12 students in the earth sciences is a primary objective of the AAPG Foundation.

ENERGY RESOURCES LIBRARY DANIEL BUSCH LIBRARY FUND

Since its inception in 1978, the AAPG Foundation Energy Resources Library has provided library services in the form of literature searches, interlibrary loans, document delivery and general reference for AAPG members, non-members, and headquarters staff. Petroleum geologists must access a variety of information in the search for hydrocarbons. Energy libraries provide access to primary data like well logs, production data, scout tickets, etc., whereas the AAPG Foundation Library provides ready access to geoscience literature information in the form of articles, books, periodicals, newsletters, statistical data, ready reference, etc.

The core of the library's collection is the full archives of the AAPG publications along with most of the publications of AAPG's sections and affiliated societies. A good collection of books and journals from trade publishers and other geological societies can also be found. Electronic resources such as CD-ROMs, DVDs, online databases and journals, and the vast wealth of Internet resources are becoming the most utilized segment of the library.

This year, library usage statistics showed that the majority of requests were for domestic information – geological data within the United States. With the ever increasing oil price, requests for reports and articles on older fields or “mature basins” for possible infill drilling or enhanced recovery is common place. Unconventional sources of energy such as shale gas and coalbed methane are popular requests.

Most requests to the library come by phone or email. Search generated bibliographies and requested documents are now almost exclusively being delivered by email. This provides almost instant access to needed information for the busy petroleum geologist.

Headquarters staff utilized the library for ready reference, Internet research, editing questions and special projects.

For those who prefer to do their own searching, the library's website provides links to governmental sources, document delivery services, publishers, map dealers, and web pages of other societies. Please see below.

The Daniel Busch Library Fund was established with a gift annuity by Daniel A. Busch. Donations to this fund help defray expenses directly related to the operation of the library.

THE BOONE PICKENS DIGITAL GEOLOGY FUND

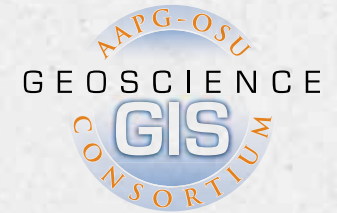

T. Boone Pickens

Established in 2008 through funding by T. Boone Pickens, the Boone Pickens Digital Geology Fund accelerates and sustains AAPG Datapages' Geographic Information Systems (GIS) publishing program through the AAPG-Oklahoma State University (OSU) Geoscience GIS Consortium. Mr. Pickens' endowment, exceeding \$7 million, generates \$240,000 per year for this program.

The Boone Pickens Digital Geology Fund provides resources to create or capture data for publication in GIS formats. The AAPG Foundation approved funding to support the following cartographic and research proposals this fiscal year:

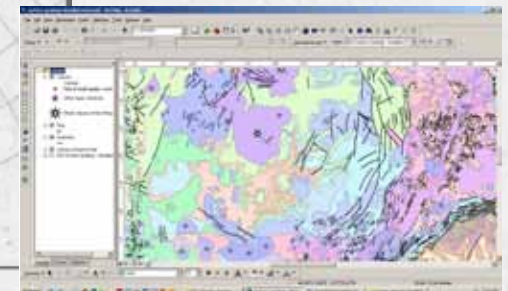

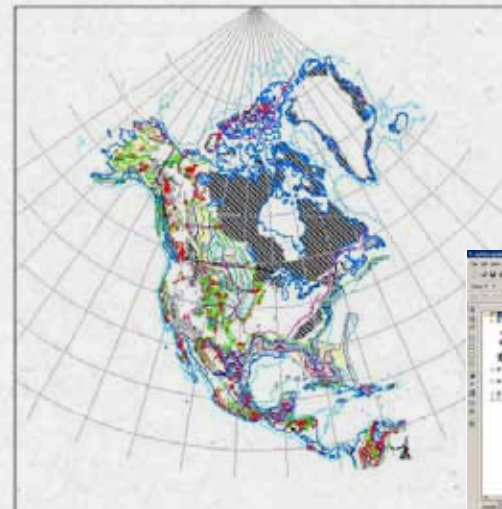

- Vectorization of Stratigraphic Atlas of North and Central America (Phase 2)
- Modification of Line Features of Tectonic Map of the World
- Cartographic/Geologic Internship
- Tectonic Map of North America, 1992, 1996
- Geology of Ethiopia
- Global Atlas of Outcropping Reservoir Rocks
- Geochemical Facies Mapping of Devonian Black Shales

DIGITAL PRODUCTS FUND

University Subscription Endowments are a special segment of the Digital Products Fund which provide a way for members, alumni, or corporations to give a gift of uninterrupted access to the entire AAPG Digital Library (over 111,000 documents of international, national, and regional libraries of petroleum, geology and geophysics information) in perpetuity to students and faculty at their designated university. The Foundation is pleased to announce the following generous individuals and organizations for providing university subscription endowments:

MICHEL T. HALBOUTY LECTURE FUND

The **Michel T. Halbouty Lecture Fund** supports an annual lecture to be given at the AAPG annual meeting focusing on exploration. The subject of the lecture must deal with wildcat exploration in any part of the world, especially in areas where major discoveries might contribute significantly to petroleum reserves or space exploration where astrogeological knowledge would further mankind's ability to develop resources on earth and our solar system.

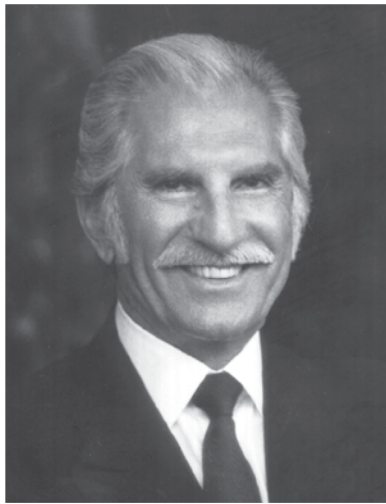

At the April 2010 AAPG annual meeting in New Orleans, the series marked the tenth anniversary with Aubrey K. McClendon speaking on "Shale Gas and America's Energy Future." McClendon has served as Chairman of the Board, Chief Executive Officer and Director of Chesapeake Energy Corporation since he co-founded the company with Tom L. Ward in 1989.

MICHEL T. HALBOUTY FUND

The **Michel T. Halbouty Fund** awards the Michel T. Halbouty '30/American Association of Petroleum Geologists Foundation Endowed Fellowship in the amount of \$2,500. The recipient shall be a worthy and deserving student enrolled in Texas A&M University at College Station, Texas, pursuing a graduate degree in geology, geophysics or geosciences. The 2009-10 fellowship was awarded to two recipients, Shari Hilding-Kronforst and Regina Dickey.

E.F. REID SCOUTING FUND

The **E. F. Reid Scouting Fund** was established and funded by the late Eugene F. “Bud” Reid, and named in his honor by the Board of Trustees in recognition for Reid’s long-time dedication and financial support of the Boy Scouts and Boy Scouts Geology Merit Badge. In addition, funding is provided to support programs which teach geology to Boy Scouts, Girl Scouts and other youth organizations as determined by the Trustees of the Foundation.

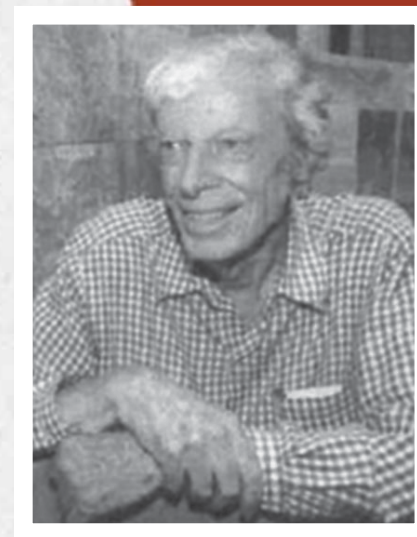

For 2010, the Board approved funding of nearly \$10,000 for the Boy Scouts of America National Jamboree in Caroline County, Va in support of the Geology Merit Badge Program.

Bud Reid (1926-2005)

E.F. REID DIBBLEE FUND

The **E.F. Reid Dibblee Fund** was established to help support the Thomas W. Dibblee, Jr. Center for Geology, which was created through the merger of the Thomas W. Dibblee, Jr. Geological Foundation and the Santa Barbara Museum of Natural History.

VISITING GEOSCIENTIST PROGRAM FUND

The Visiting Geoscientist Program Fund provides funding for selected geoscientists to visit college/university earth science departments. The AAPG Visiting Geoscientist Program has provided campus visits by active and experienced geoscientists for over 36 years. The program is going strong today and in the 2009-2010 fiscal year reached over 1,923 students and faculty at 52 universities worldwide with the following AAPG professional geoscientists sharing their experiences and career insights throughout the United States and 16 other countries:

THE BRIDGE FUND

Established in 2009, the Bridge Fund is dedicated to the creation of a feature length documentary film and large scale website that examines the future of energy – what fuels we will be using in the coming decades, how we will get there, and what this means for all of us. The mission of the project is to create a culture of energy education, so that consumers can make wise energy decisions in the ways they live, the products they buy, and the culture they shape – to help ensure a secure energy future for all of us.

The filmmakers include Dr. Scott W. Tinker as the projects guiding voice and on-camera narrator and Harry Lynch, of Arcos Films, an award-winning documentary filmmaker, to produce the film and website. Filming is complete and the project is in the final stages of editing, to be released in 2011. It is intended for broadcast to a general audience, distribution through video and international satellite and perhaps theatrical in limited markets. To date, \$2.1 million has been raised. The \$3 million project was partially supported with a grant from the AAPG Foundation.

Stepping carefully in an Icelandic fumarole field, with camera man Wilson Waggoner. Iceland is the world leader in geothermal energy.

“OUR FOOD AND WATER, SHELTER AND TRANSPORTATION, COMMUNICATIONS, LIGHT, HEAT AND COOLING – EVERY FUNCTION AND FACET OF MODERN LIFE IS BUILT UPON ENERGY. AND GLOBALLY, 87% OF IT COMES FROM FOSSIL FUELS. BUT, WITH CARBON AND SUPPLY CONCERNS, WE HAVE BEGUN THE SHIFT TO ALTERNATIVES. WE MUST NAVIGATE THIS TRANSITION VERY CAREFULLY TO ENSURE THE STABILITY OF ECONOMIES AND THE HEALTH OF THE ENVIRONMENT. AND FOR THIS, A SOLID ENERGY EDUCATION IS ESSENTIAL.”

Dr. Scott W. Tinker

Dr. Steven Rosscoe, winner of the Holland Award of Excellence with Dr. Scotty Holland

HOLLAND AWARD OF EXCELLENCE FUND

The AAPG/Holland Award of Excellence Fund was established by Dr. David “Scotty” Holland to be used by selecting high achieving faculty members from the Holland School of Sciences and Mathematics at Hardin-Simmons University for special recognition and reward. Recipients are chosen annually and awarded a financial award from this endowment to be used for professional development and enrichment.

Dr. Steven Rosscoe, Assistant Professor of Geology at Hardin Simmons University in Abilene, Texas, received the award in 2009. Rosscoe says he joined the HSU family in 2008 because of its tradition of giving students a high quality education and fostering a friendly, family-like atmosphere that is similar to those experiences he had during his education.

LEGACY SOCIETY

The Foundation's Legacy Society was established in 2008 by the Board of Trustees to honor and recognize donors who have advised the Foundation of their creation of a legacy gift to the Foundation through their estate plans.

The Board of Trustees honor and recognize these generous donors who have chosen to leave a legacy that will assure program support in future generations.

MAKING A GIFT TO THE AAPG FOUNDATION

LEAVING A LEGACY IS ESSENTIAL TO FUTURE GENERATIONS.

Your gift to the AAPG Foundation reflects your personal commitment to promote the AAPG Foundation mission and is greatly appreciated.

To make a contribution online, go to:
<http://foundation.aapg.org/donate.cfm>.

There are many ways to offer support to the AAPG Foundation. For additional information about naming opportunities, commemorative gifts, endowment gifts, donor recognition, stock transfers, etc. please call the Foundation at 918-560-2644 or 888-945-2274 ext. 644.

The AAPG Foundation is a 501(c)(3) tax-exempt charitable organization. The federal tax identification number is #73-1298684.

THANK YOU FOR YOUR INTEREST AND SUPPORT OF THE AAPG FOUNDATION
